

Ensemble Anthem

The Ensemble Anthem application creates screen capture and webcam recordings which are automatically uploaded into the user's Ensemble Media Library.

Log into Ensemble: <https://ensembleweb.sjfc.edu/> using your network credentials.

Launch Anthem:

Click on the **Record** button from the Media Library
or
Directly from your computer without visiting the Ensemble web application.

Note: To change the library that Anthem uploads to, log into the web application (<https://ensembleweb.sjfc.edu/>) and click the **Record** button from that library.

Settings:

From Ensemble Anthem application, click on **Settings** to confirm that your Webcam and Microphone are selected properly.

Record

Click on the record tab to view all recording options:

- Screen capture
- Screen capture with a picture-in-picture webcam
- Webcam only
- Voice only

A timer will count down five seconds, then the application will start recording. The application may be minimized during the recording.

Click on the **Anthem icon** in the Windows or Mac taskbar/dock to reveal the mid-recording options:

Click on **Done** to finish the recording and advance to the Anthem

Office of Information Technology at St. John Fisher College

Editing:

To trim the beginning and/or the end of the video, click on the **Trim** button.

Click and drag the round orange handles to select the beginning and end points to trim the video.

The **Chop** function works in a similar way, except the content between the handles is removed. Click on **Apply** to finish.

Click on **Done** to save the content.

Upload Options:

From the Upload Options dialog box, Add:

- Title and Description (if desired)
- Upload—to send content to designated Ensemble library
- Preview—to return to Anthem editor
- Save—to save the content without uploading.

Library Tab:

You can view and edit all saved recordings. Click **Upload Now** to upload a recording that has not yet been uploaded to Ensemble.
