

When a Student Prints

A deduction is made to their Pharos Printing Account. Each account is credited with a generous printing allowance at the beginning of the semester so that Students have some free prints each semester before there is any cost at all. When the student uses all of her/his free prints, Pharos Printing will start deducting from the student's Cardinal Cash account. Please visit [Cardinal Cash](#) for more information about Cardinal Cash including how to add money to your account.

Free Prints:

Students receive a beginning balance of \$35.00 each semester which is equivalent to 500 double sided prints. Students will receive the print credit before the first day of classes each semester.

As of September 1, 2011, the student lab printing costs are as follows:

Black and White Printing:

Single sided: \$.10/print
Double sided: \$.07/print (\$.14/page)

Color Printing:

Single sided: \$.22/print
Double sided: \$.20/print (\$.40/page)
