

## To install printers on your Fisher computer:

Campus printers can be installed using the PaperCut Print Deploy client running on your computer. You will need to know the name of the device you'd like to install. This can be found on a sticker on the front of the printer/copier.

To open the Print Deploy client:

Windows PC

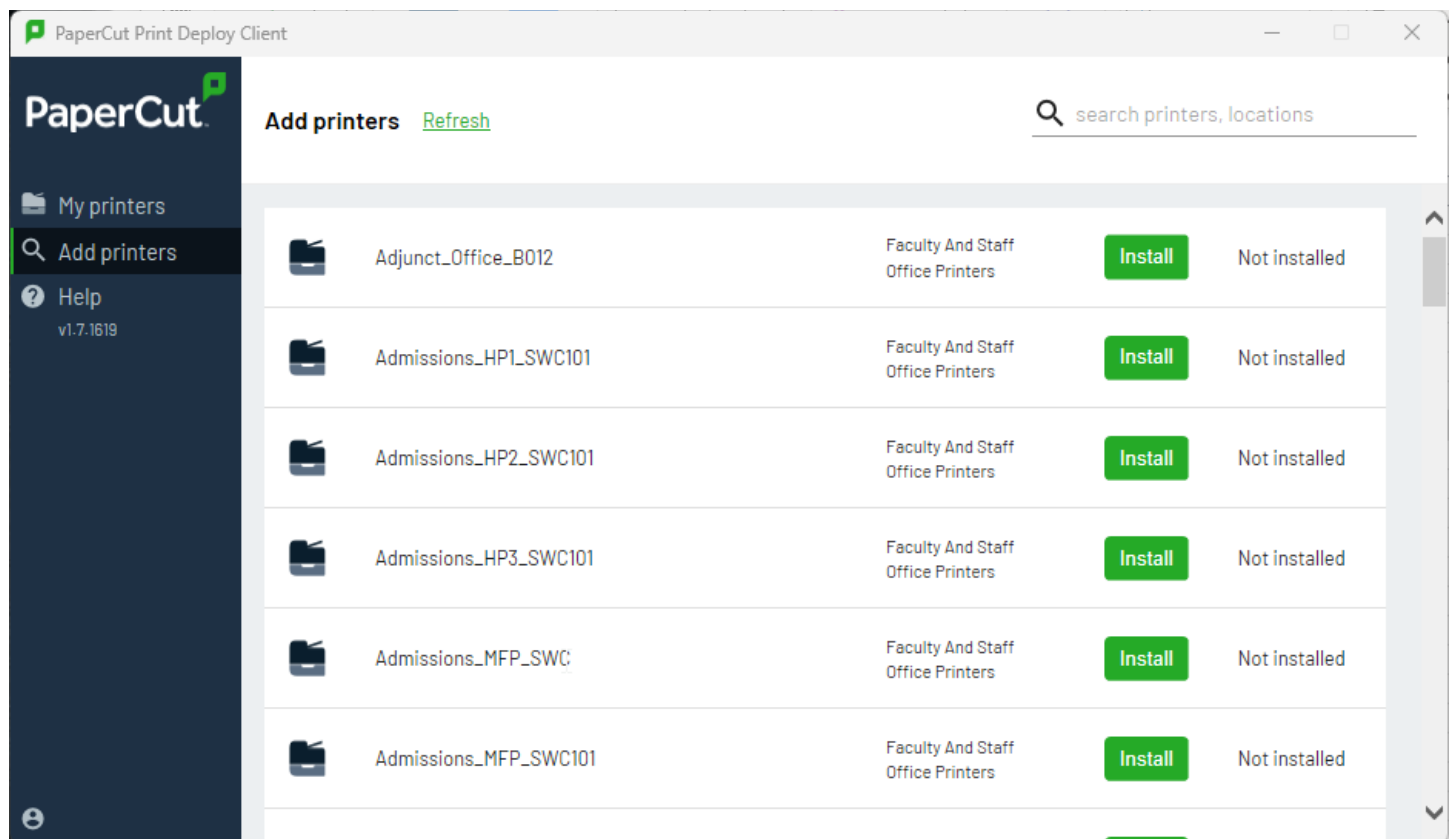

Click the arrow to the left of the time/date to show all icons, click the green **PaperCut Print Deploy Client** icon and select **View my printers**.

Mac

On the right of the menu bar at the top of your screen, click the green **PaperCut Print Deploy Client** icon and select **View my printers**.

Click the green **Install** button to the right of the printer you'd like to install.

The screenshot shows the PaperCut Print Deploy Client application window. The title bar reads "PaperCut Print Deploy Client". The interface includes a dark sidebar on the left with the PaperCut logo, "My printers", "Add printers" (selected), and "Help v1.7.1619". The main area has "Add printers" and a "Refresh" link, along with a search bar "search printers, locations". A table lists several printers, each with an "Install" button and a "Not installed" status.

Printer Name	Location	Action	Status
Adjunct_Office_B012	Faculty And Staff Office Printers	Install	Not installed
Admissions_HP1_SWC101	Faculty And Staff Office Printers	Install	Not installed
Admissions_HP2_SWC101	Faculty And Staff Office Printers	Install	Not installed
Admissions_HP3_SWC101	Faculty And Staff Office Printers	Install	Not installed
Admissions_MFP_SWC	Faculty And Staff Office Printers	Install	Not installed
Admissions_MFP_SWC101	Faculty And Staff Office Printers	Install	Not installed
